**Section 1848(c)(7) of the Act specifies that for services that are not new or revised codes, if total RVUs are to decrease by 20 percent or more compared to total RVUs for the previous year, applicable work, PE, and MP RVUs adjustments shall be phased in over a 2-year period. In implementing this, CMS considers 19 percent the maximum 1-year reduction for any service (excluding new or revised codes). This limits the year one reduction for a service to 19 percent, and then phases in any remaining reduction.
